- Elimination of unnecessary stock movements
- Reduced manual handling
- Good ergonomics
- Flexible and extendable
- Geared for future growth

*Heniz Stamm,
General Manager/Vice President
of Fisher Clinical Services:*

"Accuracy and confidentiality are paramount... and with the new automated distribution warehouse our high level of control has been expanded into distribution."

Furthermore... We will be using the automation to eliminate a lot of wasted time and effort."

Fisher Clinical Services

- innovates with a 24,000 sq. ft., miniload automated warehouse from Univeyor
